

DZ ADJUSTABLE LIFT RAMPS

for SMALL DELIVERY VEHICLES

Dockzilla offers a lineup of fully adjustable loading dock ramps to load and unload small delivery trucks, sprinter & cargo vans, and other parcel delivery vehicles. Available in powered or manual models, these multi-purpose truck ramps allow shorter vehicles to be serviced at the same conventional elevated loading docks as 53' over-the-road trailers.

KEY FEATURES:

- Allows 53' OTR trailers to be used at the same dock position as smaller vehicles.
- Custom-engineered ramps accommodate deck height and vehicle dimensions.
- Safety provisions for truck driver and pedestrian safety are included.
- Driver stairs available for easy access to vehicle.
- Integral LED lighting help drivers back into docks, especially after dusk.

NO ADDITIONAL DOCKS NEEDED: DZ RISER RAMPS ADJUST HEIGHTS FOR BOTH SMALL VEHICLES & OTR TRAILERS

Combine riser ramps with Dockzilla modular loading docks to retrofit any facility for last mile, 3PL, or other shipping needs. Check out the DZ Dock House for thermal benefits, energy efficiency, and interior floor space savings!

DZ12125
Single Axle Adjustable Riser Ramp

- Most versatile and least sensitive to variable loading dock conditions.
- Includes traction surface.

DZ11783-18
Level Vehicle Static Riser Ramp

- Full length riser levels wheels for conventional 48" elevated dock doors.
- Can be set between 6"-48", well beyond the 12"-20" height of typical parcel ramps.

DZ5520
Hydraulically Adjusted Single Axle Riser Ramp

- Fully-hydraulic, self-contained powered push button adjustment allows wheel riser to accommodate varying trailer or van heights.
- 115v/1ph or 460v/3ph required.

DZ12227
Hydraulically Adjusted Riser Ramp

- Fully-hydraulic, powered push button adjustment accommodates shorter delivery van heights and 53' OTR trailers at the same dock position
- 460v/3ph or 575v/3ph (Canada) required.
